NATIVE SEED PRICE LIST – EFFECTIVE JANUARY 2010

This price list supercedes all previous lists.

Tranen specialises in the supply of native seeds of plant species indigenous to Western Australia. Our clients base is very diverse, and includes landscapers, developers, nurseries, land care groups, government departments, mining and construction companies, farmers, researchers, schools and the general public.

ORDERS

Seed prices vary a lot between species, and generally reflect the availability and the degree of difficulty in harvesting and processing the seed. This price list is indicative only, as seasonal conditions, availability and demand can have significant effects on market prices in the short term. Before placing an order, please email, fax, or mail your requirements to us for confirmation of availability in the required quantities and pricing (or call us if you prefer, if your species list is small). When we provide you with a firm quotation, it will remain valid for 30 days, but availability will be subject to prior sale.

SPECIES NAMES

Species names are those current in Florabase. Names that have recently changed are shown in brackets.

CONDITIONS OF SALE

Prices

All prices are in Australian dollars. Prices shown exclude Goods and Services Tax (GST) of 10% which will be applied to all sales within Australia. Overseas orders are exempt from GST.

Most species are sold by weight but some (eg Banksia, Macrozamia and Xylomelum) that are more variable in seed size are sold by seed numbers instead, and our prices are structured as follows:

Species sold by weight:

- The minimum order quantity in grams and the associated price is shown. This rate also applies pro-rata to orders for up to 49 g.
- The 100 gram rate applies to orders for 50 to 499 g
- The kg rate applies to orders for 500 g or more.

Species sold by number of seeds:

- The minimum number of seeds that may be ordered and the associated price is shown. This also applies pro-rata to orders of up to 499 seeds.
- The 100 seed rate applies to orders for 500 to 999 seeds.
- The 1000 seed rate applies to orders for 1000 seeds or more.

POA indicates price on application.

Minimum Order

The minimum total order value is \$50.00.

Due to customs and quarantine issues, we normally don't cater for overseas orders with a value of under \$1,000.

Additional charges

Additional charges will be applicable if smoke, scarification, or hot water treatment of seeds is requested, or if phytosanitary certificates are specified.

Charges for insurance, if requested, are additional.

For overseas orders, you should advise your bank not to deduct any fees or charges from your remittance. Any such deductions made by your bank will be to your account.

Despatch

Orders will generally be dispatched within five working days of receiving order confirmation, unless otherwise instructed.

Ownership and responsibility passes to the purchaser when the goods are handed to the Post Office or carrier. Insurance can be arranged on request.

Postage & Handling

Unless otherwise advised, we will send orders by Australia Post Parcel Service, current charges for which are:

- Within WA: up to 500 grams - \$7.00, thereafter \$0.50 per additional kilogram
- Other states: up to 500 grams - \$8.50, thereafter depending on the state.

For international sales - Australia Post's prevailing airmail prices will apply.

Invoiced weights are net when packed.

Payment

We accept payment by Mastercard and Visa, electronic fund transfer, cheque and money order in favour of to Tranen Pty Ltd. Cash payment will only be accepted over the counter.

For international orders, we recommend payment be made by telegraphic transfer.

Our bank account is with Westpac Bank, Shop 22 Floreat Forum, Western Australia, BSB No 036 063, Account No 91 1607, in the name of Tranen Pty Ltd.

When you make payment by bank transfer, please advise details of payment to us for verification with our bank to minimise delays in processing of your order.

Unless prior credit arrangements have been made, seed will be despatched only after full payment is received in Australian dollars.

Our Australian Business Number (ABN) is 37 054 506 446.

Germination Tests

If required seeds may be ordered with seed quality certification, indicating batch purity, viability and germinability. This certification is conducted by an independent laboratory and as such, the cost of this service is added to the cost of the seed order.

Warranty

The purchaser warrants that it has satisfied itself as to the suitability of the seeds for the purchaser's purpose, and the purchaser agrees that no express warranty, condition or representation has been given by Tranen as to quality, fitness, suitability or otherwise of the seeds.

The purchaser agrees that, so far as Australian law permits, all conditions and warranties which might be implied on the part of Tranen are hereby negated and excluded. Where legislation implies conditions or warranties on the part of Tranen which cannot be negated or excluded, liability for breach of such conditions or warranties shall be limited, at the option of Tranen, to:

- (a) refund of any amounts paid to Tranen for the supply of the seeds; or
- (b) resupply of the seeds.

Claims/Returns

All shipments should be inspected immediately upon receipt and claims for any cause should be made in writing within five working days of the receipt of goods. Tranen Pty Ltd will not accept any claims after the seeds have been cleaned, planted or improperly stored or treated. Returns will not be accepted without our express permission obtained prior.

GENERAL

Other Species

Please do not hesitate to enquire about species that you may require which are not listed in our catalogue, and we will be pleased to endeavour to source them for you.

Technical Information

Please feel free to contact us if you require further technical information, including information on seed counts for particular species.

Additional Services

Tranen are able to provide the following additional services:

- Collection, processing and storage of seed from project sites
- Direct seeding and revegetation
- Maintenance, monitoring and review of revegetation
- Revegetation consulting and planning services
- Soil erosion and sediment control
